

Two people in a committed and loving relationship doing the work of marriage deserve the cultural respect, social support and legal responsibilities that come with it. It is unfair to shut some people out. By adding my name **I PLEDGE MY SUPPORT FOR THE FREEDOM TO MARRY** and equality for lesbian, gay, bisexual and transgender people.

**Let California Ring** is a public education campaign of over 45 organizations working to open hearts and minds about the freedom to marry for gay and lesbian couples. Let California Ring is founded on the idea that people with many different backgrounds and beliefs can come together to support fairness, freedom and the principle that *all* people should have the same chance to realize their hopes and dreams.

*By adding my name to this list I will receive information about this public education effort from Let California Ring as well as the partner organization listed above.  
I will receive an initial e-mail confirming my interest and may opt out at any time.*
