Do you know...

- That the Medicare Donut hole is scheduled to close and what it means.
- How the legislation gives tax breaks and help to small businesses
- Children under age 19 with a pre-existing condition can NOT be denied coverage
- That it bans lifetime limits on coverage
- That it bans health care plans from dropping coverage when people get sick
- That it benefits seniors, young adults and everyone in your congregation
- That it will actually help lower the federal deficit
