**Reflection and Evaluation
for
Listening Campaign Leaders and Interviewers**

This is an opportunity for you to reflect on and deepen your experience of social justice work. Answer these questions for yourself after every 1-1 interview or small group meeting.

Did I establish a relationship?

Did I uncover what matters to this person?

How courageous was I? What was the riskiest question I asked?

What did I do well?

What do I want to do differently next time?
